2 Sign the seller agreement

1. The first time you log in, the **Seller Agreement** appears. It explains the 5% platform fee and that YeboSell never holds your money — buyers pay you directly.
2. Type your **full name** and your **place of signing** (e.g. Maseru), tick the box, and tap **Sign & Continue**.
3. A **signed PDF** downloads to your phone automatically. Re-download it any time from **Settings**.

Tip: typing your name is your electronic signature — it's a real agreement, so read it once.

Seller Agreement

Before you continue, please review and accept the YeboSell Seller Terms. In short:

- YeboSell charges a **5% platform fee** on the goods subtotal of each paid order. As a launch offer, the first 10 sellers to join get their first 10 paid orders free — your Dashboard shows whether the trial applies to you.
- Platform fees accrue to your account as a running balance, and you agree to **settle your outstanding balance** on request.
- If your balance reaches the warning level you'll be reminded; if it reaches the suspension level your store may be paused until you settle.
- YeboSell never holds your sales proceeds — buyers pay you directly. The platform fee is a separate amount you owe YeboSell.
- You are responsible for the quality, safety and legality of your products.

6 Manage stock (inventory)

1. Open **Inventory** to see every product's stock at a glance.
2. Low-stock items are flagged so you can restock before you sell out.
3. Update a count directly, or edit the product. Stock **drops automatically** when a buyer orders.

Tip: accurate stock avoids selling something you don't have.

7 Share your store

1. Tap **Visit** (or copy your store link) to open your storefront.
2. Share that link on **WhatsApp status, Facebook and Instagram**, or send it to a customer directly.
3. Anyone who opens the link can browse your products and place an order — no app needed.

Tip: pin your store link to your WhatsApp “About” and social bios.

8 Receive & update an order

1. When a buyer orders, you get a **notification** (turn on alerts when asked). Open **Orders**.
2. Tap the order to see items, the customer and delivery details.
3. Move it along the stages: **New** → **Confirmed** → **Preparing** → **Ready / Out for delivery** → **Delivered**.
4. If you need more time, update the delivery timeline — the buyer is told automatically (a reason is required).

Tip: confirm new orders quickly — buyers love a fast first response.

9 Message your buyer

1. Inside an order, use the **chat** to message the buyer — they see it on their tracking page and by notification.
2. Prefer WhatsApp? Tap **Message on WhatsApp** to open a chat with a ready-made note from your own number.
3. Buyers can reply, send a payment proof, or ask questions — it all stays on the order.

Tip: keep it friendly and clear — good service brings repeat orders.

10 Get paid & platform fees

1. Buyers pay **you** directly — by EFT to your bank details, or cash on collection/delivery.
2. Once paid, mark the order **Paid**. The buyer follows everything on their tracking link.
3. YeboSell charges a **5% platform fee** per paid order (goods only). Your balance shows on the **YeboSell Account** card on your Dashboard; settle it when asked.

Tip: YeboSell never touches your money — the fee is billed separately, not deducted from sales.

11 What your customer sees

1. Your customer opens your **store link**, adds items to a cart and checks out — entering their name, phone and delivery choice.
2. They agree to the buyer terms and place the order. They get a **tracking link** they can save to their phone.
3. From that link they follow the order status, chat with you, see your bank details, and can cancel before you dispatch.

Tip: encourage buyers to "Add to Home Screen" so they get order updates.
