

Welcome — let's open **your store**.

Follow these seven steps on your phone. You'll need your phone number and a few product photos.

- 1 Create your account**
Go to **yebosell.co.za** and tap **Seller Login**. Enter your phone number, type the SMS code we send you, then set a 4-digit PIN to unlock the app on your device.
- 2 Sign the agreement**
Review the seller terms, type your **name** and **place of signing**, and tap **Sign & Continue**. A signed PDF downloads automatically — you can re-download it any time from Settings.
- 3 Set up your store**
In **Settings**, add your business name, logo, pickup address, and your **bank details** for EFT (you can add more than one account).
- 4 Add your products**
Tap **Products** → **Add**. Enter a name, price, photo and stock. Add sizes or colours and a prep time if you need them.
- 5 Share your store**
Copy your store link and post it on **WhatsApp, Facebook or Instagram**. That link is your shop — anyone can browse and order.
- 6 Manage orders**
When a buyer orders, you get a notification. Update the order status and message the buyer right inside the app.
- 7 Get paid**
Buyers pay **you** directly (EFT or cash) — YeboSell never holds your money. Mark the order paid; the buyer follows everything from their tracking link.

TIPS FOR YOUR BEST WEEK

- ✓ Turn on notifications so you never miss an order
- ✓ Keep your stock counts up to date
- ✓ Reply to buyers quickly — speed builds trust
- ✓ Use clear, bright product photos

Stuck on anything? **Chat with YeboSell** on WhatsApp **+266 5729 9369** — we're here to help you get your first sale.
