

Welcome — let's open your store.

Follow these steps on your phone. You'll need your phone number and a few product photos.

1

Create your account

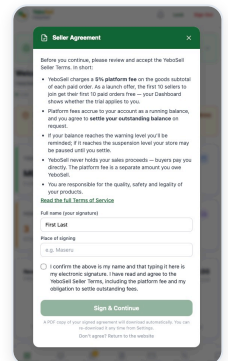

Go to **yebosell.co.za**, tap **Seller Login**, enter your phone number, type the SMS code, then set a 4-digit **PIN** to unlock the app.

2

Sign the seller agreement

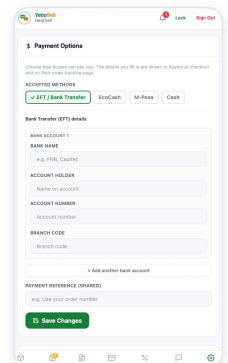

Review the terms, type your **name** and **place of signing**, and tap **Sign & Continue**. A signed PDF is saved to your phone.

3

Set up your store

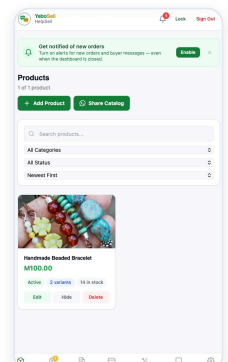

In **Settings**, add your business name, logo, pickup address, and how buyers pay you: **bank (EFT)**, **EcoCash**, **M-Pesa** or cash — just enter your numbers/accounts.

4

Add your products

Tap **Products** → **Add**. Enter a name, price, photo and stock. Add sizes/colours and a prep time if you need them.

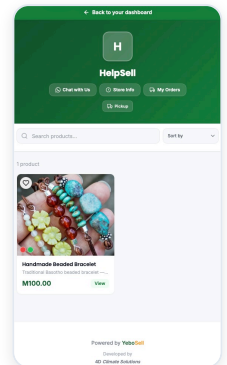

5

Share your store

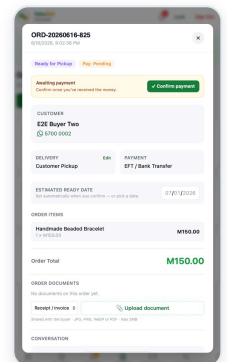

Copy your store link and post it on **WhatsApp, Facebook or Instagram**. Anyone who opens it can browse and order — no app needed.

6

Manage orders & message buyers

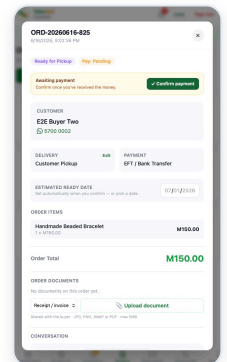

When a buyer orders you get a notification. Update the status (New → Delivered) and message the buyer in-app, or send a ready-made **template**.

7

Get paid

Buyers pay **you** directly — bank EFT, **EcoCash, M-Pesa** or cash. YeboSell never holds your money. Tap **Confirm payment** to mark the order paid.

TIPS FOR YOUR BEST WEEK

- ✓ Turn on notifications so you never miss an order
- ✓ Reply to buyers quickly — speed builds trust
- ✓ Keep your stock counts up to date
- ✓ Use clear, bright product photos

Stuck on anything? **Chat with YeboSell** on WhatsApp **+266 5729 9369** — we're here to help you make your first sale. Full terms at yeboSell.co.za/terms.
